- Able to start totally dead (0.0V) batteries
- Fast recharging with QC3.0 charger
- Reverse and Backfeed Polarity Protection
- Short Circuit Protection
- Over-Current Protection

Model JNC325 is a lightweight, lithium 12 Volt Jump Starter that delivers exceptional power and performance. With rugged cables and clamps, the JNC325 delivers 450 Start Assist Amps – enough to start most V8 vehicles. It also features an override function that allows the unit to be effective in starting even batteries with zero volts state of charge.

In addition to being a jump starter, the unit features 2 USB Ports (5V2.4A, 5V1.0A) to charge small electronics, such as your phone or tablet. In addition, it features a DC outlet to power accessories or enable the unit to be used as a memory saver (with the included female 12V adapter). The JNC325 also features numerous safety features, such as Reverse Polarity Protection, Short-Circuit Protection and Over-Voltage Protection. One of its best features is the LED Flashlight. Never worry about getting stranded in the dark and hopelessly searching for the proper battery connections.

The JNC325 includes an output cable set, wall charger (QC3.0) with charging cable (USB-C), female 12V adapter with pin jack connector and repair service coupon in a convenient storage pouch.

REPAIR SERVICE COUPON

\$110

JUMP n Carry

Use it... abuse it. Heck, run it over with a semi-truck. No problem, we'll take care of the unit. It doesn't even have to be assembled. Simply return your JNC325 (or all of its parts, properly and safely packaged), along with this coupon. We will either recondition the unit or replace it with a refurbished unit and return it, all for a fee of just \$110.00.

Complete the reverse side of this coupon and return it, along with your \$110 payment and your unit to Clore Automotive. It's that simple!
